

LENNON GROVES

MUSIC PRODUCTION STUDENT

OBJECTIVE

Attend a college or university that will foster my love for creating music and expand on my technical skills. I hope to be able to build my skills to a point with my music where it can be my career. Creating music has been a passion of mine ever since I picked up an instrument at 11 years old.

EXPERIENCE

SOFTWARE SKILLS –

ABLETON (2018 - CURRENT)

I have solely used Ableton Live, but I am looking forward to expanding my knowledge of DAWs in the near future. I first utilized the free trial of Ableton 10, after this I downloaded the Lite version of the software. Finally, after around 4 years, I had decided to save up enough to be able to purchase the Suite version.

TRAINING –

BERKLEE ONLINE COURSE (06/22 – 09/22)

Ableton Live Fundamentals - Ableton Live is not only an ideal tool for recording, but it can also be used for composing, arranging, mixing, and performing. This course included a broad overview of the music-making process as well as digging deep into the unique aspects of production, synthesis, sampling, effects processing, and workflow inside Ableton Live.

LESSONS (2016 - CURRENT)

Proficient in playing the Ukulele, Guitar, Piano, and Midi.

VOLUNTEER WORK

CAMP WRIGHT RESIDENT CAMP (2021, 2022)

Counselor in Training (CIT) – totaling 144 service hours per summer

LET'S GO MUSIC FESTIVAL (2021, 2022)

Volunteer (2021) – General volunteer activities. Vendor assistance
Volunteer Coordinator (2022) – Supervise, train, and assign work to volunteers
